

Constructing Infinity

A workshop
for kids and adults

Explore the mathematics of infinity
through hands-on activities and
mind-bendy exercises

Leave with your own handmade
model of infinite space!

No math background expected!

August 8 & 15, 2 - 4pm
4291 24th St, San Francisco
\$50

About the teacher

Jack Love has a PhD in math and an extensive background in mathematics education and outreach. He is also an artist and a maker, and loves bridging math, art, and making to share mathematics with others.
